WIC income eligibility is based on 185% of US Department of Health and Human Services poverty guidelines.

You are income eligible for WIC if you receive Kinship Care, W-2 or Foodshare. You may be income eligible if you currently receive Medicaid or BadgerCare Plus.

The WIC Program uses the same income criteria as free and reduced price school lunches.

WIC income is based on family size and takes into account all the money coming into the home (before deductions). A pregnant woman counts as two family members.

For specific income levels by family size, consult the WIC income eligibility table below.
